Study literature 24 hours a day, 7 days a week - an offer of your library!

Dear students,

The UAS Bingen library provides you with numerous electronic books and electronic journals. You can access these e-media not only on campus, but also from **outside!**

Here's how to find your professional literature for "off-campus" use:

1. You can search for your title in our library catalog <https://opac.ub.uni-mainz.de/DB=11/> and after clicking on the title link (DOI or URL) in the full title display, you will be redirected from there to the respective publisher's page.
2. It is also possible to enter directly via the publisher's homepage. You will find the links in the following instructions.

Regardless of the path you have chosen, a login is required on the publisher's pages. This is done via the authentication service "Shibboleth". Below you will find a brief description of the login process of the individual publishers:
